

Club Scrap® Stamp “Text Image” Index  
as of March 22, 2008 (Avant Garde kits)  
by Lynn Mathers  
[LynnMath@aol.com](mailto:LynnMath@aol.com)

Here is a table with all the images I could muster up. It is currently sorted in alphabetical order by image, since that is the way that most people will want to begin searching for a particular word or phrase. However, with Word tables, you can also sort this table by any of the other three columns; for example, if you want to see which kits are involved in this table, sort on the first column to get them in chronological sequence of when they were released; or sort it on the third column to get them in alphabetical order by kit name, etc. If you need help with the sorting function of Microsoft Word, just shoot me an email...

If you notice any spelling errors or inaccuracies, please let me know so I can correct them on future versions. Or if you notice any kits that were left out, please inform me of that as well.

I was unsure of exactly which early kits began having unmounted images made, so I've listed here ALL the kits that had Borders & Backgrounds TEXT images printed on them. Of course they're not all available any longer if you see one you don't have and want; however, you can use the B&B sheet to photocopy onto cardstock and cut out the image to use as a die cut as an alternative.

On a few of the quotes in the table, you will see an end quote at the end ( ” ) of them. There aren't matching opening quotes at the beginning, because that would have put them at the very top of the alphabetical list, and they wouldn't appear in proper alphabetical sequence that way. So if you see an end quote, in reality there IS an opening quote at the beginning on the real stamp. Also I tried to accurately depict the use of lower case and upper case in the fonts, since that may be a factor in your choice of which font you'd like to use if you have a choice between several. It may make some of the entries in the list below look a little strange, taken out of the graphic context, though!

Happy browsing!
